**Nighthawks - ONLY (Vocal Tunes 2004 - 2016)**

The Nighthawks achieved some wonderful results in the long span of their career creating vocal tunes, now for the first time bundled in the compilation **ONLY (Vocal Tunes 2004-2016)**.

The band has invited selected singers to the studio over the years, which certainly changed the sound of the band to world music. As there are the great Polish singer **Anna Maria Jopek** and Sting guitarist **Dominic Miller** on the track "Male Tesknoty", or the Serbian singer **Emilia Istvan** with the Balkan anthem "Ederlezi".

Besides that, US singer **Shannon Callahan** and De-Phazz singer **Pat Appleton** with some cool-lounge performing. The Brazilian **Patricia Cruz** adds a feathery light number and **Jeff Young** from Los Angeles, long-time member of Jackson Browne, Steely Dan and Bonnie Raitt, performs marvelously on "Happy Days".

In this cosmos of a total of eleven groove accentuated vocal tracks that fit perfectly to the summer and classics like "Descend", "Here we are", "Define the day", relaxed tunes like "A California", vocals by **Dal Martino**, the producer and bassist of the Nighthawks blend in. Such as the **Bob Dylan** classic "Man in the long black coat". This compilation is a 'got to have' for the sunny days of the year.
